3 STEPS TO TRANSFORM HOW YOU SOURCE YOUR TECHNOLOGY

Ever-changing technology expectations add extra pressure on finite time and resources

LET'S GO →

THE REQUIREMENTS FOR SELECTING, BUYING AND IMPLEMENTING NEW TECHNOLOGY ARE GETTING MORE AND MORE COMPLICATED.

"What tech do we need to **modernise** our workplace and attract talent?"

"Where do we need to **focus** our attention to become more secure?"

"How do we **transform** our IT to be more agile as an organisation?"

"When should we **upgrade** to improve our productivity and efficiency?"

COMPUTACENTER TECHNOLOGY SOURCING PROVIDES THE ANSWERS

Helping you determine your technology needs and – supported by our technology partners – arranging the commercial structures, integration and supply chain services to meet them reliably.

ADDED VALUE AT EVERY STEP

We adapt our processes to fit precisely what you need at any point in the hardware and software lifecycle.

Save time

Save money

Reduce risk

Be sustainable

ACCESS

We need to know what we're buying is right for us...

Market Assessment

What's this?
We carry out detailed research and vendor training to better leverage in situ investments and determine the cost of change while helping your team understand what they are looking at from a technical and commercial standpoint.

Commercial and Technical Assurance

What's this?
We undertake in-depth market analysis into the commercial value of hardware, check tech against live pricing data and tailor technology plans to your needs.

International Management

What's this?
We can offer a portfolio of international capabilities, local expertise in-country and standardised tooling and SLAs across the globe.

AGGREGATE

> We need to a better way to buy, store or recycle our tech...

Portfolio Management

What's this?
We provide vendor independent end-to-end Portfolio Management. This comprises of a number of discrete service components, which jointly deliver a perpetual product and services offering to ensure the right device, availability, supply and succession planning.

Inventory Management

What's this?
We help you control the cost, availability, traceability and usability of hardware and software assets with an end-to-end supply chain management capability, fully automated warehousing and multiple commercial models.

Circular Services

What's this?
We build sustainability into your agreement, provide a tech collection service and reuse, repurpose or recycle old tech.

ACCELERATE

We need to stay on top of the latest tech and speed up deployment...

Advisory Services

What's this?
We ensure you can navigate the market to identify the best technology solutions, continually review your Technology and Business needs and create short- and long-term plans to maximise the value of your investments.

Productivity Readiness Services

What's this?
We help you control the cost, availability, traceability and usability of hardware and software assets with an end-to-end supply chain management capability, fully automated warehousing and multiple commercial models.

Transition Management

What's this?
We analyse the latest technology roadmaps from vendors and provide supply chain and storage services to make it easier to move to new tech when you're ready.

Logistics

What's this?
We provide end-to-end supply chain management and tracking as well as on-site or at-home deliveries and make sure you can trace every asset you have paid for.
